

Lecture Series

Biomedical Basis of Disease

Lecture Series I: May - July 2010 *in German*

Lecture Series II: September - November 2010 *in English*

Time: Mondays, 3 - 4.30 pm

Location: TRM Leipzig

The lecture series addresses scientists in life sciences without medical background. You will gain knowledge in anatomy and patho-/physiology of the human organ system and become informed about prospects and perspectives of regenerative medicine. A visit to the Anatomical Collection will complete the series.

You are cordially invited!

For further information and registration (Lecture Series I or II) please contact:
esd@trm.uni-leipzig.de

Places are limited.
Closing date: 16 April 2010
